## INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

International application No. PCT/ILO3/01010  International filing date (day/month/year) 27 November 2003 (27.11.2003)  Applicant Applicant This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of sheets. It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  By With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing: contained in the international application in written form. furnished subsequently to this Authority in written form. furnished subsequently to this Authority in computer readable form. furnished subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (See Box II).  With regard to the title, the text is approved as submitted by the applicant. the text has been established by this Authority to read as follows:	Applicant 26841	's or agent's file reference	FOR FURTHER	see Notifie	cation of Transmittal of International Search					
Applicant YISSUM RESEARCH DEVELOPMENT COMPANY OF THE HEBREW  This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, ungest otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in written form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  With regard to the idite,  the text is approved as submitted by the applicant.  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  because this figure better characterizes the invention.	Internation	not application N	ACTION	item 5 bel	ow.					
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of			International filing date (day/mont) 27 November 2003 (27.11.2003)	h/year)	(Earliest) Priority Date (day/month/year) 29 November 2002 (29.11.2002)					
This international search report consists of a total of sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  With regard to the international application recorded in computer readable form is identical to the written sequence listing has been furnished.  With regard to the international applicant is lacking (See Box II).  With regard to the title,  With regard to the title,  the text has been established by this Authority to read as follows:  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  he text has been established with the abstract is Figure No.  as suggested by the applicant.  None of the figures because the applicant failed to suggest a figure.  because the applicant failed to suggest a figure.										
This international search report consists of a total of sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  With regard to the international application recorded in computer readable form is identical to the written sequence listing has been furnished.  With regard to the international applicant is lacking (See Box II).  With regard to the title,  With regard to the title,  the text has been established by this Authority to read as follows:  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  he text has been established with the abstract is Figure No.  as suggested by the applicant.  None of the figures because the applicant failed to suggest a figure.  because the applicant failed to suggest a figure.										
It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (See Box II).  With regard to the title,  with regard to the title,  the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  With regard to the dastract,  the text is approved as submitted by the applicant.  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  because the applicant failed to suggest a figure.  because this figure better characterizes the invention.	This inter according	This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.								
It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b.
